

# Ashcroft Terminal

Materials Handling • Transloading • Logistics

The economical cost of land combined with the only two Canadian major rail carriers on site and the proximity of Trans Canada Route 1 makes Ashcroft Terminal an ideal location for Agriculture supply chain activities.

AT is expanding its operations and services for the Agriculture industry and will be able to provide:

- Bulk products to be loaded /unloaded between truck and railcar transportation.
- Customized, loading, unloading, storage and handling facilities
- Product Storage, Railcar staging and storage
- Transloading
- Value add services (i.e. bagging, cleaning) as per specific customer needs

Ashcroft Terminal has signed Letter of Intent with Mitcon Inc. for the development and expansion of servicing the Agriculture industry on site.

Ashcroft Terminal is a “shovel ready” bulk and transload facility convenient to Port Metro Vancouver and the Lower Mainland. Current operations can be expanded immediately.
